comm BOX

Interactive
No Drivers • No Calibration

CommBox Interactive Touchscreens are replacing projectors & Interactive Whiteboards within boardrooms & classrooms.

The CommBox Interactive touchscreens are super bright and clear, true HD, have a long life expectancy and require no drivers or calibration.

- No drivers, no calibration (Windows & Mac)
- Available in 60", 75" & 85"
- True HD (1080p)
- Samsung commercial LED panel inside

- 4mm toughened glass
- Anti-Glare glass
- Combined camera/Infra-red technology
- Fingertouch or anytouch (stylus, gloves etc)

How to use

The CommBox Panel can be used in two ways:

1 Turn panel on and access the web, network, images, video etc and even use as an electronic whiteboard. The built in operating system and CommBox software allows users to annotate over web pages, PowerPoint's etc or simply choose a coloured background and start writing with finger or stylus.

2 Plug in a Windows or Mac PC or laptop and interact immediately. No drivers or software needs to be loaded. The CommBox panels are truly plug-and-play.

CommBox Touchpanels Vs Projectors/IWB

- Superior image quality (brighter and higher resolution)
- Multi touch/gesture support
- No replacement lamps
- No drivers, no calibrating (Windows & Mac)

- True HD (1080p)
- No shadowing
- Less energy
- Longer life

Why Camera & Infra-Red

Using combined camera and Infra-Red technologies, (compared to older infra-red only), guarantees that the CommBox panels are ultra-responsive and extremely accurate.

Anti-Glare Glass

Anti-Glare glass enables users to see the board, even in bright and sunlit rooms. Anti-Glare glass provides a smooth surface to touch, without friction burn.

Active Windows 8 Border

CommBox panels provide the ultimate Windows 8 touch experience with active borders. Top & side swipes, & gestures are all supported.

Life Expectancy

Samsung commercial panels inside ensure exceptional long life (50,000 hours). This equates to 17 years if used 8 hours every single day.
