

## Chiayo 100 UHF Wireless System

ARTIST Series system packages are the latest addition to the NAS wireless offering. Artist features 100 channels of UHF frequency selection with an auto-spectrum scan feature, an LED channel display and IR frequency pairing between the receiver and transmitter. Patch cables are included in each package.

## Features

- Diversity design receiver with 100 factory preset user-selectable UHF frequencies
- IR Sync for quick and simple synchronisation of the receiver and transmitter
- SCAN function automatically locates the next clean frequency
- Up to 12 channels can be operated simultaneously within a selected 25MHz bandwidth
- RF & AF LED indicators
- Rack-mountable with optional mount kit

## Available Packages
