FUYL Tower™

An intelligent charging station with 15 individually lockable compartments that can store and charge any mobile device.

Efficient charging. Each compartment is equipped with a power outlet and a 2.4 amp USB port, so you can charge almost any device, including; iPads, Tablets, Laptops, Chromebooks, mobile phones and more[1].

Highly Secure. The digital keypad controls the security of every compartment. Additionally, the management software records every time a compartment is opened or closed, enabling administrators to investigate abnormal usage.

WiFi Ready. The FUYL Tower is capable of connecting to your network with the built in WiFi functionality.

Intelligent remote management. The FUYL Tower features innovative software that enables administrators to actively monitor locker usage anytime, anywhere.

API Integration. Take your FUYL tower to the next level by integrating with the FUYL Tower's API - allowing your development staff to integrate software or apps that connect with the FUYL Tower.

Leverage check-in and check-out environments. Easily contain fully charged, ready to use devices inside lockers until the administrator provides access to a user.

Lifetime warranty[2].
PC Locs products are built to last.

Secure digital locking system that's easy to operate.

Each individual locker is conveniently operated by the central control panel where you simply follow the prompts on the screen.

Modular and scalable.

The FUYL Towers minimalistic design adapts to any space and is perfect for Schools and Universities where staff and students bring their own devices.

More than just a powered locker.

Where the FUYL Tower shines is through the innovative management software that comes included with the tower itself. Once network connected, designated administrators can view, access and manage one or more FUYL Towers remotely.

Remote access.

Administrators can remotely open any door at the touch of a button; receive alerts of any abnormal usage or technical fault and download a full audit log.

The option to receive automatic notifications.

By subscribing to our cloud based service, FUYL Tower Assist, we do the hard work for you and will let you know whenever anything needs attention. With Assist you "set and forget". This service is currently included with every FUYL Tower.

Future proofed.

FUYL Towers are upgradeable. This means that you can benefit from software and firmware updates as the product evolves.
