

# PVF 4112 Video conferencing furniture white

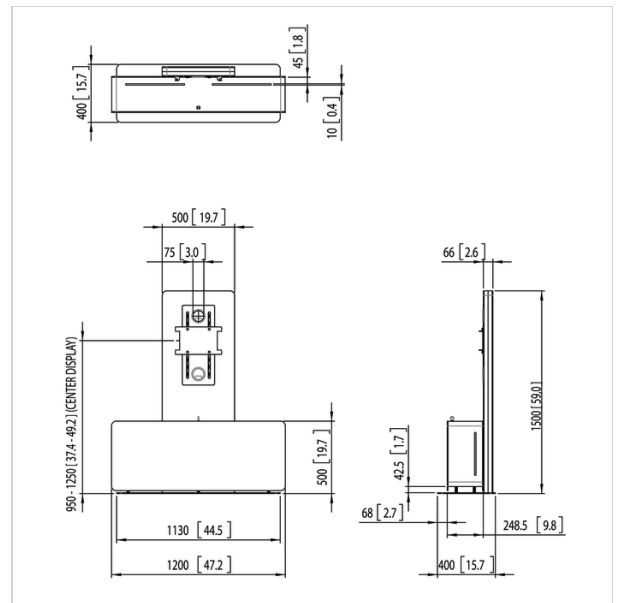

Article number (SKU) 7141121  
 Colour White

## Key Benefits

- Theft prevention
- Ample storage space for AV equipment
- Easy to install
- TÜV certified

The PVF 4112 is a standalone videoconferencing furniture for single displays from 55" to 90" and dual displays up to 65". The furniture has to be combined with the Connect-it interface bars and interface display strips. Use the Vogel's camera and loudspeaker holders (PVA 5050 / PVA 5070) and loudspeakers (PVA 43xx) to create a complete video conferencing solution.

The PVF 4112 is made of high quality materials. Thanks to the slim design, the furniture is ideal for use in small rooms. The cabinet can be locked to prevent unauthorized access to the products inside. It has two 19" rack spaces and includes 2 trays which are adjustable in height. A special compartment is created in the centre of the cabinet to place a power socket. Height adjustable feet make it possible to level the product. The product is available in silver and white.
