Wi-Fi or Ethernet Connectivity

DEVICE SET-UP AND USE

> Mount camera on top of a standard dry-erase board up to 6 ft x 4 ft. Mount the control pad next to the board.

> Plug in power cables and use the online portal to configure the camera unit (only needs to be once during setup).

> To start a session, go to a URL, input the six-digit code, press lighted button on the control pad. That's it!

IMAGE PROCESSING

> Proprietary embedded software uses video processing to identify and extract only important content.

> Image is automatically enhanced to remove any reflections, glare, and people blocking the board.

> Camera grabs individual snapshots of the board multiple times per second for live streaming.

SAVE AND SHARE CONTENT

> Access whiteboard content online in real time on any device through browser-based interface. No apps or downloads!

> Save whiteboard content as a single snapshot or PDF of the full session. Share content for later review.

> Invite participants to view the whiteboard session or share content through any video conference meeting.
