

## The All-in-one Camera Dedicated to Live Streaming Your Events.

Mevo Start is designed specifically for streaming live events and long-form video. The camera is capable of simultaneous streaming and recording videos at up to 1080p. With the Mevo Camera App, you can live edit your broadcast from your phone. Pan from guest to guest, zoom in to important details, crop and cut from shot to shot, and more! With 3 digital MEMS microphones and a 3.5 mm line in port for additional gear, the sound is amazing. And you'll appreciate 6 hours of battery life for those on-the-go events.

### Go Live to Every Major Platform

Go live to Facebook, Twitter, YouTube, or any destinations that support RTMP. Unlock simultaneous streaming to multiple destinations with our Vimeo Producer and Vimeo Premium plans.

### Edit Your Content Live

Real-time editing at your fingertips. Your phone or tablet is now your personal video editing suite—zoom, pan and cut, all from a single camera and app.

### Mevo Webcam App

Connect Mevo Start to your computer as a Webcam source using the USB cable or wirelessly. Works with many webcam applications including Zoom, Google Hangouts, and Microsoft Teams.

### Mevo Multicamera

True multi-camera productions will soon be just a click away. Connect to multiple Mevo cameras and mix between them from your phone.

Coming Summer 2020
